

Richlite's composite surface material is made with 50 percent recycled OCC (old corrugated cardboard) and 50 percent Pacific Northwest softwood pulp. This combination produces a dense and durable surface material ideal for countertops, backsplashes, wall caps and many other interior and exterior design elements. Call 888-383-5533 or visit richlite.com.

Eliane introduces the Spectro Series, a colorful and lively glass tile series with a textured surface, ideal for brightening the walls of any residential or commercial setting. The ecologically-friendly manufacturing process creates engineered relieved wall tiles in various colors. Call 972-481-7854 or visit elianeusa.com.

Ridgid's new wet tile/stone saw features an adjustable laser guideline for accurate cutting and reduced waste. Has a large cutting capacity and a plunge cut feature, and comes with an intergrated folding stand with wheels for easy set up. Call 800-474-3443 or visit ridgid.com.

Industrial Nanotech's new Nansulate HomeProtect line of coatings provide both insulation and mold prevention. This comes in a white, tintable interior coating or an exterior clear coat that is translucent. Brings down energy costs by reducing heat loss in your home. Call 800-767-3998 or visit nansulate.com.

Bristol and Bath offers Florinse, a stylish stainless steel faucet that would be easily at home or in the busiest of restaurant kitchens. Its large-scale flexible design far exceeds anything offered by a traditional fixed faucet. The eye-catching arched silhouette provides comfortable clearance for filling large pots, and the long neck adds greater flexibility when paired with a multibasin sink. Call 610-962-9329 or visit bristolbath.com.

**DoorTech Stamped Steel Carriage House Door** The new Chateau model is a deeply embossed carriage-style door with a variety of glazed window designs. The door will initially be available in white only, 24 gauge. The section heights will be 21- and 24-inch for 7- and 8-foot door heights with optional decorative hardware. Later, it will be offered in almond in 7-foot height, and an insulated steel back model is coming. Call 800-499-6504.
